

**ENGINEERED
ELECTRONICS, INC.**

**GERIATRIC CALL CORD
(SIX FOOT) 900-803
(TEN FOOT) 900-804**

FEATURES

- * SOFT TOUCH AIR BULB ACTIVATED
- * MOLDED 1/4 INCH MALE PHONE PLUG
- * PILLOW CLIP FOR ATTACHING TO BED LINEN
- * AVAILABLE IN "Y" TYPE CORDS

GENERAL DESCRIPTION

The EEI Geriatric type Nurse Call Cord provides a means of placing a call through any patient station by momentarily touching the Air Bulb at the end of the cord. Each cord is six or ten foot in length and is provided with a pillow clip for attaching the cord to the bed linen.

ENGINEERS' SPECIFICATIONS

- (1) The equipment described shall be manufactured and assembled entirely in the United States of America.
- (2) A normally open momentary type call switch shall be an essential part of this device for placing a call on any EEI patient station.
- (3) The cord shall be a minimum of six foot in length and constructed of a 5/16 by 3/16 inch diameter gray tubing.
- (4) The tubing must be a Medical Grade Gray Vinyl and should be available in various colors.
- (5) The cord shall be Underwriters' Laboratory, Inc. listed (U.L. 1069).
